# JOB VACANCY

## CNC Turner - Setter / Operator / Programmer

**Contract:** Permanent  
**Salary:** £17.25 per hour.  
**Hours:** Full time, 39 hours per week.

### Role

**Experienced CNC Setter / Operator / Programmer required to join our Turning section.**

Operating since 1980, Philip James Precision Engineers provides CNC machining and affiliated services to market leading companies from our fully equipped and modern manufacturing facility. Specialising in complex prototype and low volume high precision component production; we undertake all design, CAD/CAM, programming and machining work in-house to achieve best value for our customers, in terms of overall package, service and quality.

We currently have an opportunity for a fully skilled CNC Turner with Setting / Programming experience to join our turning section.

Required skills / experience;

- Experience of Programming, or willing to learn
- Setup and operate machines with a minimum of supervision
- To work to correct tolerances and check own work during Production
- Meeting production targets and assisting with the production of various parts when required

Basic hours - Monday to Thursday - 07:30 to 16:30 and Friday 07:30 to 12:30

Benefits:

- Company pension
- On-site parking
